PUBLISHER'S STATEMENT OF COPYRIGHT AND LIMITATION OF LIABILITY

Reproduction of any part of the 1990 Numismatic Dealer Directory without written permission of the Coin Dealer Newsletter is a violation of copyright law and is specifically prohibited. The CDN will strictly respond to any and all violations of the CDN copyright.

Every precaution has been taken to avoid errors and omissions in the 1990 Numismatic Dealer Directory, both in the directory listings and in the display advertisements. The Coin Dealer Newsletter expressly rejects any liability for errors in the listings due to incomplete, inaccurate, or omitted information. The free dealer listings may be corrected for the 1991 Numismatic Dealer Directory by submitting one of the Change of Address coupons provided at the end of the "GREYPAGES" advertising section.

Every precaution was also taken to correctly include all display advertising. Should any error have occurred, an advertiser is limited in recovering for any loss or omission to a pro-rata abatement of the charge paid for such advertising in the proportion that the error reduces the value of the entire advertisement. In no event shall such recovery exceed the amount paid to the Coin Dealer Newsletter. An advertiser can substantially avoid the risk of errors or omissions by submitting camera-ready copy, which we encourage for all display advertising.

Note to consumers: The 1990 Numismatic Dealer Directory has been prepared for use by members of the numismatic dealer community. As consumers, only you can decide what services or products best meet your needs. The inclusion of any dealer in the 1990 Numismatic Dealer Directory DOES NOT MEAN that the Coin Dealer Newsletter has endorsed the products or services of such dealers. Neither the listing of dealers nor the display advertising constitutes an endorsement of the individuals concerned, their companies, business practices, or products. Furthermore, you should be aware that "GREYPAGES" advertisers are subject to various local, state, and federal laws and regulations; the enforcement of such laws and regulations is the responsibility of the appropriate agencies.

USING YOUR 1990 NUMISMATIC DEALER DIRECTORY

The 1990 NDD contains three sections, each having a specific significance to the whole directory. The first section lists dealers alphabetically by state, and alphabetically by their **company name**. Company names that contain initials, such as D&G Coin Co. are listed at the beginning of the alphabet, as are company names starting with numbers. This is the easiest way to locate a dealer if you know the state in which they reside. When an individual name is also the company name, **keep in mind that the listing will be alphabetical using the first name**. For example, since Julian M. Leidman is not only a personal name, but the name of his company, he will be listed alphabetically in MARYLAND under "J" for Julian. Accordingly, the first listing is in the state of **Alabama**, and the first company is **ANCO**.

Within the first section, we have highlighted with blue ink those "GREYPAGES" advertisers with full page and half-page ads. We encourage you to read all advertisements; they contain important information, and the support of these leading dealers made this directory possible. The state headings are also highlighted in blue for easier use in finding addresses.

The second section is primarily a cross-reference, alphabetical listing of bolded personal names (by last name) and CAPITALIZED company names. The names of numismatists will be followed by their company name and the state under which it is listed in the first section. To make finding someone even easier, we have also listed company names. When the company name is the same as the numismatist's name, you will be able to locate them both ways. For example, Julian M. Leidman will have two cross references: under J, "JULIAN M. LEIDMAN, MD" to let you know the company name and state; under L, "Leidman, Julian M., MD, Julian Leidman". The cross references are intended to direct you to the complete listings in the first section.

The final section of your 1990 NDD contains the "GREYPAGES" advertising. Included are most of America's leading numismatic companies; companies who were sure that this directory would be one of your most useful tools. The "GREYPAGES" begin with an index which lists all the various advertising categories. Under each topic you will find the specific advertisers with expertise within that area. You will also find some cross-references in red ink directing you to advertisements under other categories. We encourage you to use your NDD to the fullest.

The information contained in the 1990 NDD has been updated to the best of our ability based upon the responses you made on the cards which you returned to us prior to our printing deadline, plus the most recent public information we had available to us. Every effort has been made to insure accurate and complete information for every listing. If any of the information in your listing is not correct, please notify us as soon as possible so that we can update our files immediately. This will help you—should we get an inquiry, we can provide the corrected information. In the back of the directory we have enclosed several coupons for updating your pertinent data. Please use these whenever appropriate. Make sure you send in at least one by the end of the year so we can reconfirm your data for the 1991 Numismatic Dealer Directory.

We hope you find the Numismatic Dealer Directory to be a useful tool throughout the year. Please don't forget to send in your current updated data. This will keep our records accurate and enable your customers and potential customers to find you fast in the directory and the "GREYPAGES".

Thank You For Using The 1990 Numismatic Dealer Directory

PHONE NUMBERS:

the COIN DEALER Newsletter *(213) 515-7369*

NOTES:

NOTES:

USING YOUR DIRECTORY

The 1990 NDD contains three sections, each having a specific significance to the whole directory. The first section lists dealers alphabetically by state, and alphabetically by their **company name**. Company names that contain initials, such as D&G Coin Co. are listed at the beginning of the alphabet, as are company names starting with numbers. This is the easiest way to locate a dealer if you know the state in which they reside. When an individual name is also the company name, **keep in mind that the listing will be alphabetical using the first name**. For example, since Julian M. Leidman is not only a personal name, but the name of his company, he will be listed alphabetically in MARYLAND under "J" for Julian. Accordingly, the first listing is in the state of **Alabama**, and the first company is **ANCO**.

Within the first section, we have highlighted with blue ink those "GREYPAGES" advertisers with full page and half-page ads. We encourage you to read all the advertisements; they contain important information, and the support of these leading dealers made this directory possible. The state headings are also highlighted in blue for easier use in finding addresses.

This, the second section, is primarily a cross-reference, alphabetical listing of **bolded** personal names (by **last** name) and CAPITALIZED company names. The names of numismatists will be followed by their company name and the state under which it is listed in the first section. To make finding someone even easier, we have also listed company names. When the company name is the same as the numismatist's name, you will be able to locate them both ways. For example, Julian M. Leidman will have two cross references: under J, "JULIAN M. LEIDMAN, MD" to let you know the company name and state; under L, "Leidman, Julian M., MD, Julian Leidman" to direct you to the state and company name. The cross references are intended to direct you to the complete listings in the first section.

NOTES:

Here's Three Good Reasons To Read This Ad

1

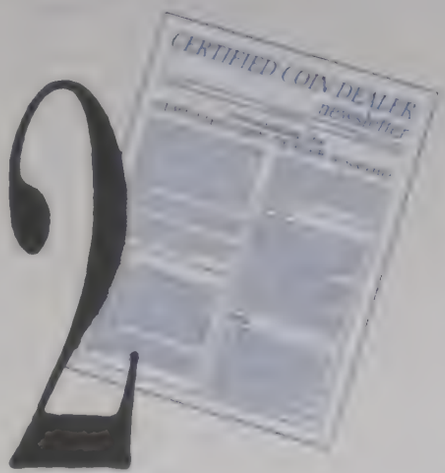

The Greysheet

(as the Coin Dealer Newsletter is often called) has been the standard wholesale pricing guide of the coin industry since 1963. It is an up-to-date reporting of dealer to dealer bid/ask prices on rare coins from the earliest through the most recent issues. (For 27 years we have given our subscribers the most comprehensive and unbiased report of the entire coin market with all the facts necessary to make informed buying and selling decisions). The CDN is published weekly to enable you to keep pace with the often dramatically changing price levels. Plus your subscription includes FREE monthly supplements. All coin dealers have discovered how invaluable the "Greysheet" is.

1 Coin Dealer newsletter (Weekly)
☐ 6 months for $50 ☐ 1 year for $89
☐ 2 years for $147

Certified Coin Dealer newsletter

the independent, unbiased professionalism that has brought you the Grey Sheet for 27 years, brings you the ultimate price guide for the certified coin market. This new price guide reports the highest known bids of actively traded PCGS, NGC, ANACS, and NCI coins. The Certified Coin Dealer newsletter brings you an intensive look at the certified coin market and the variables in price structure among the industry's leading grading services.

2 Certified Coin Dealer newsletter

Currency Dealer newsletter

covers dealer to dealer bid/ask prices on U.S. fractional currency, large size U.S. notes, small size U.S. notes, uncut sheets, small size currency and in depth articles and analyses. This monthly publication is the only up to date pricing guide available in today's ever changing market.

An important note about the publishers of these Newsletters.

The publishers of these price guides do not buy, sell or trade coins. In short, there's no persuasive forces that might distort the true market picture.

Thinking of selling?

Let Bowers and Merena get the best prices for you!

Right now we are accepting consignments for our upcoming auction season, with sales to be held in **New York City.** We offer you the following:

Experience: Of the top 10 world's coin records, we hold eight, including six of the top seven! We also hold the record for selling the three most valuable coin collections ever auctioned: (1) The $25 million Garrett Collection for The Johns Hopkins University, (2) The $20 million Norweb Collection, and (3) The $12.4 million Eliasberg Collection of U.S. Gold Coins. Over a span of many years we have sold approximately $200 million worth of coins for over 10,000 consignors. Whether you have several thousand dollars worth of numismatic material or $25 million, you've come to the right place!

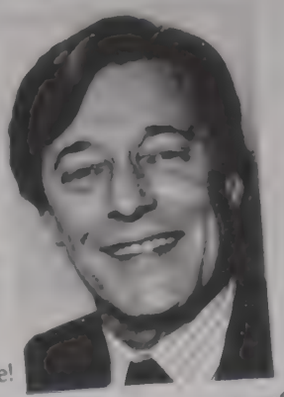

■ *The 1861 Paquet Reverse double eagle sold in our Norweb Collection sale for a record $660,000.*

Expertise: Your coins and paper money will be catalogued by such well-known numismatic experts as Q. David Bowers, Dr. Richard Bagg, Michael Hodder, Raymond Merena, Andrew W. Pollock, Mark R. Borckardt, and Elizabeth Arlin, backed up by full in-house facilities, including our Photography Department, our Graphics Department, and others. The result is a beautiful and authoritative catalogue which will highlight your numismatic material to its best advantage. Did you know that our catalogues have won more "Catalogue of the Year Award" honors, including 1988 and 1989 honors (given by the Numismatic Literary Guild) than have ALL of our competitors combined? There must be a reason!

Reasonable Rates: For one low commission rate to you, the seller, plus a fee charged to the buyer, we handle EVERYTHING—from complete insurance starting the moment we acquire your coins, to cataloguing, to photography (of important pieces in full color), to advertising and publicity—in other words, all you have to do is figure out what to do with our generous check!

Pleasurable Transaction: We offer you a pleasurable, enjoyable transaction. At Bowers and Merena, the entire team is on your side!

■ *Rick Bagg, Director of Auctions at Auctions by Bowers and Merena, Inc.*

The first Step: Please telephone Richard ("Rick") Bagg, Ph.D., or Ray Merena today toll-free at (800) 458-4646, or use the coupon below. Have a question? We have the answers. Either way, call today. This may well be the most important financial move you've ever made!

THE LATEST HALLMARK NEWS:

THE CONNOISSEUR'S HALLMARK GRADING SERVICE

Hallmark Successes: In the marketplace HALLMARK coins continue to score success after success! We noted earlier that in Teletrade auctions surveyed, HALLMARK coins in all instances brought over bid prices – a situation not true of the coins from other services. Increasingly, auction firms are turning their attention towards HALLMARK coins. Reflective of this interest, in the dealer listing below we have added a special section showing which of our dealer members will arrange the certification of your coins by HALLMARK for their auctions.

Norman Pullen Writes: Norman Pullen, a distinguished professional numismatist who has been serving his customers with care for many years, is an authorized dealer for four leading grading services. In a recent brochure, he described all four, and said this about HALLMARK: "Norman W. Pullen, Inc. has become one of the first authorized HALLMARK dealers, a collector-oriented service founded by Lee J. Bellisario and Bowers and Merena Galleries. We are enthusiastic about our association with HALLMARK because they offer several special features which are currently unavailable from the other major grading services. They include:

"*A 'PQ' designation on the holder for Premium Quality coins.

"*A 'PS' designation, for Premium Strike, for coins unusually well struck.

"*'FBL' on Franklin halves to signify Full Bell Lines..."

Mr. Pullen went on to list numerous other HALLMARK advantages, concluding with this: "HALLMARK is currently the only grading service which will attribute your coins by die variety..."

Why HALLMARK?: HALLMARK is "The Connoisseur's Grading Service," as we say in our motto. If you have coins of particular value or rarity and want to have them encapsulated to their finest advantage, and, as the market seems to be telling HALLMARK dealers and customers, if you want them to realize attractive prices when you want to sell them, then HALLMARK is the answer. Obviously, it takes the experts on the HALLMARK staff extra time to examine your coins for the HALLMARK "extras," in addition to the technical or numerical grade. However, HALLMARK encapsulation is competitively priced, and in the long run may be your very best value!

How to use HALLMARK: Below we list our distinguished dealer members, who are all looking forward to receiving coins from you for HALLMARK encapsulation. Simply write or call your favorite dealer, and complete submission information will be sent to you!

PCGS Plus

Extra Service, No Extra Cost
We want your PCGS Business

Just a few reasons why Joel Rettew RCI should be your PCGS dealer:

Professional Staff

Staffed with two full time and one part time employee, our submission department is dedicated to customer satisfaction. In addition to this staff, we have three professional numismatists on staff who will screen your coins for obvious no grades. This saves you the submission fee for a coin that would be returned from PCGS with no grade.

Experience

In the last three years we have submitted approximately 75,000 coins to PCGS for grading. If you feel at all apprehensive about submitting coins to us for PCGS grading, please call us. Our accreditations will be furnished upon request. We want you to feel comfortable about submitting your coins for grading. Joel Rettew has been buying and selling coins since 1953.

Quicker Turn-Around

Because of our close proximity to PCGS, we are able to cut one step out of the submission process. After we receive your coins and prepare them for PCGS we personally deliver them. This saves time and eliminates the extra postage cost to you.

Free Submission Kit

Submission kits have been made up for our customers and are free of charge. "Don't jump! I know the market just dropped 350 points, but you still have your NGC-graded coins!"

The stock market may go up and down, but the strict grading standards of NGC have made rare coins a more stable option for investors seeking a diversified portfolio.

That's because, since its inception, Numismatic Guaranty Corporation has led the way to establishing the strictest, most conservative standards for grading coins, recognizing that the investment community-and the coin industry itself-needed a means by which to more objectively measure a coin's ultimate value.

Investors can be assured that the grade NGC assigns to a coin today will still be valid years from now, because NGC-graded coins are not subject to fluctuating grading standards. NGC sets limits, each NGC grader is limited as to the number of coins he grades each day. Accurate grading takes time-...but NGC's investment in time produces a better investment for you: a coin with a stable grade.

Investors can also be assured of complete impartiality when buying an NGC-graded coin. While other grading services continue to allow their final graders to be active dealers, NGC's policy is to strictly forbid its final graders and full-time employees to buy, sell or trade coins for commercial purposes. This independent analysis, free of any conflict of interest, also produces a better investment for you: a coin with a more credible grade.

By making reliability and credibility its policy, NGC has made stability a constant and liquidity a reality for everyone interested in buying and selling coins. Which is why, when some of the world's most respected financial institutions decided to invest in rare coins, they trusted their money to NGC.

Whether you're a hobbyist, a collector or an investor, you can always trust NGC to give you the best money can buy. *No matter which way the market may jump.* For more information about NGC and a free sample of our sonically-sealed, tamper-proof holder with a silver pre-1964 Roosevelt dime, complete and mail the coupon or call 1-201-984-6222.

FREE! Complete and mail the coupon to send for your complimentary pre-1964 Roosevelt dime encapsulated in an NGC holder, so that you may examine the security it affords while showcasing the natural beauty of the coin itself.

NGC. The standard by which all other services are graded.

TRUE QUALITY, FAIR PRICES, PERSONALIZED SERVICE

TRUE QUALITY: We buy coins for what they really grade and not the holder. Over ninety percent of our purchasing is done on a sight-seen basis. Our 15-plus years experience as major buyers has taught us what comes available with colors, what's dull or weakly struck, and most importantly what a coin should truly look like for its labeled grade. It is our belief that the quality of a coin must be there 100% to justify its price. And the only coins we purchase are the ones we truly desire to own.

FAIR PRICES: Our markups are among the lowest in the business. we also know the right coins to buy and the proper prices to pay. In addition, our offices are extremely efficient with low overhead to help maximize our enormous purchasing power. At LSS RCI we employ no salesmen, so all coins are sold only by the principals of the firm (with no gimmicks, jacked up prices, or hidden fees). In the end, we want our customers to make money from their numismatic investments.

PERSONALIZED SERVICE: In our opinion, SERVICE is just as important as PRICE and QUALITY. At LSS RCI we encourage communication and openness with our customers. No calls go unreturned and every letter received is read and answered. All customer records and want lists are stored on our modern, up-to-date computer system and frequently reviewed by LSS RCI principals so that no major change in the market adversely affects our customers. Also, all orders are immediately processed and shipped for established accounts. We do everything possible to show respect. loyalty, and support to our customers. We ourselves are enthusiastic coin collectors and investors.

If you have followed our ads you've noticed TRUE QUALITY, FAIR PRICES, and PERSONALIZED SERVICE are always the top headline. We hope the descriptions listed (above) enable you to see what the phrases mean and what we stand for.

In an up market anyone can sell you coins. Unfortunately, not many dealers can sell you the right coins, properly manage your account, and still be there to buy them back if the market drops. We do everything possible to ensure our customers that our job doesn't end once we have sold them a coin.

We are dramatically different from most dealers. Our profits are carefully reinvested back into the business to benefit customers and to help make us grow. All our listings of coins are only of new purchases from major shows (not leftovers with changed prices). At LSS RCI it does not matter whether you spend 100.00 or 100,000.00 as we strive to treat everyone fairly and with respect.

Our commitment is 100% to our retail customers. We primarily deal in commems, choice type and scarce silver dollars. So call us with your want list. We'll work hard to be your dealer for the long term!

PREMIUM QUALITY RARE COINS

For a long time, we have bought and sold **Premium Quality** coins, and strongly recommended them to our own clients. Since we feel the rare coin industry is moving toward **Quality** as well as **Rarity**, we have now formed **P.Q.R.C. Inc.**, as a separate company, solely to Buy and Sell **P.Q. Rare Coins.**

Serving the discriminating collector and wholesale market alike.

We buy and sell only certified coins graded MS/Proof 65 to 68, 1800 to 1947. For the last 10 years as owner of M.S. Quality Coins, and a representative of Goldtown, I have individually managed several personal rare coin portfolios over the last 3 years. These portfolio's have a combined average return over 20% to the investor. This is not a pie in the sky 50 to 100% made in two weeks last may. It is a real return made day-in and day-out for at least 3 years. If you don't make money, we don't either. If you would like to discuss our program, look me up at any major coin convention or feel free to call me, or write...

Most rare coins aren't rare at all.
Do your coins have a fundamental reason to rise in value?

PCGS has certified over 85,000 Morgan dollars MS65 or higher; over 35,000 walking liberty halves. PCGS has graded more than 30,000 $20 St. Gaudens MS64 or higher.

Given the quantities certified, it comes as no surprise that common MS65 Morgan dollars have lost two thirds of their value since 1986. Yet 52 *scarce* dates – exactly half the dates in the series – have more than doubled in value.

A recent study (The Winning Edge, Issue #139) shows that while a portfolio of common certified Type coins fell 26% in value since 1986, a portfolio of scarcer issues registered an 81% increase. A group of plentiful commems showed a 46% loss, a scarcer group rose 74%.

In 20th century series, common date coins have declined while low-population, scarcer date coins have increased from 50% to over 300% since 1986.

Clearly, long term performance in rare coins is based primarily on scarcity. If profit is your motive, your most prudent course is to hold truly scarce, highly liquid PCGS and NGC certified coins for five years or more. By taking a long-term position, you can nullify the effects of periodic market swings and keep your transaction costs to a minimum.

If you wish to take an earnest, considered approach to investing in rare coins, we have just published a new 12-page report that you will find helpful. Topics covered include

- **How to get a grip on better returns in coins**
- **The coin that's up 850% since 1986**
- **The coins that *do* have a fundamental reason to rise in value.**
- **The movers: specific recommendations for maximum appreciation**

Best of all, you risk nothing. The report is yours FREE with your FREE six-month subscription to The Winning Edge. You don't spend a cent.

With This Crucial Report, Get The Winning Edge...

FREE. Published once every three weeks, The Winning Edge is an exclusive selection of the scarcest, high grade, investment-oriented PCGS and NGC certified coins. It is also widely held to be one of the straightest, most usefully informative newsletters in numismatics.

Certified Coin Dealer newsletter

Now that the market for certified coins has been firmly established, it is time to acquaint yourself with the current market for certified rare coins. The ***Certified Coin Dealer newsletter,*** published by the ***Coin Dealer Newsletter*** (est. 1963), is the *only* price guide available listing the wholesale bid levels of coins certified by the Professional Coin Grading Service, Numismatic Guaranty Corporation, American Numismatic Association Certification Service, and Numismatic Certification Institute.

Published weekly, the ***CCDn ("Bluesheet")*** reports the highest known bids on actively traded certified coins in various grades of Mint State and Proof. Prices are constantly updated for the most popular series and issues graded by the four leading services. Bids for PCGS and NGC are reported every week; bids for ANACS and NCI are updated monthly.

Over the past three years the certified market has been incredibly active. More dealers are actively seeking more coins, at higher levels, for their clients. Recent ***CCDn*** issues indicate more Bid changes than we have ever seen. These prices are based upon data from all major market makers in certified coins and they all concur that the market "is moving".

The ***CCDn ("Bluesheet")*** is important to you because bid levels differ considerably from one service to another. For example, in a recent issue the bids for an 1881-S Morgan Dollar in MS-65 were:

	PCGS	NGC	ANACS	NCI
Bid	**$280**	**$265**	**$250**	**$130**

The ***Bluesheet*** reports dealer bid levels for sight unseen coins. However, Dealers may pay even more depending upon their needs, but remember, that volatility is a characteristic of the certified coin market. Bids can increase or decrease dramatically in a short period of time. Without current market information, making informed buying or selling decisions is impossible. You need the ***Bluesheet*** now!

Early American Numismatics

The Country's Largest Market Maker in Colonial Coins

Over 100 ANACS Certified Colonial Coin Rarities in Stock !

As the dynamic certified rare coin market continues to expand, ever greater numbers of serious investors are being introduced to the world of numismatics. Naturally, a certain portion of these individuals have taken a personal interest in the hobby and history of coin collecting.

Colonial Coins and Currency form the earliest beginnings of our American numismatic heritage. For over a century and a half and right up through the 1950's, Colonials have formed the very core of *virtually every* major numismatic collection!

Colonial Coins represent the last bastion of resistance to becoming a part of today's *"Slab"* marketplace. There are several significant reasons. Colonial Coins must be seen! They were created on crude, sometimes irregular or defective planchets and struck from hand-engraved dies. Weights and shapes vary. Early dies deteriorated rapidly creating cracks, mounds or reduced details. Therefore many different "die varieties" of the same basic coin design were produced. Indeed, collecting Colonials is one of the most fascinating and extensively studied areas in American numismatics.

Always Buying:

- All Colonial Coinage & Fugio Cents
- All Colonial & Continental Currency
- Pre-1800 Bonds & Fiscal Paper
- Colonial Newspapers & Lottery Tickets

WE LIST OVER 25,000 RECORDS

NUMISMATIC EVENTS – We list all coin shows in the U.S.A., and selected international events. During 1989 we listed over 2,000 shows. We do not charge any listing fee. We have data on shows scheduled through 1999. Using this data base, we publish THREE separate editions of the **White Sheet**, one each for collectors, dealers, and show promoters. The edition for collectors is given away free of charge at coin shows and is mailed to coin clubs. The other two editions are customized computer printouts (each is an original) published quarterly, and available only by subscription at $59.00 per year. Our subscribers include the ANA, PNG, ICTA, AINA, many state & regional associations, major AUCTION firms such as Heritage, Stack's, and Pacific Coast, most major SHOW PROMOTERS, and a host of important BOURSE DEALERS. If you have an interest in coin shows, YOU NEED THIS SERVICE.

INVESTORS & COLLECTORS – We list more than 15,000 active coin collectors and investors. This data base has been compiled from lists of mail-order coin buyers, public registrations at coin shows, and customer lists provided by participating coin dealers. The American Numismatic Association has used this listing for a national mailing.

CLUBS & ASSOCIATIONS – We list over 1,600 coin club & association officers, in over 60 countries. These include professional associations and non-commercial organizations such as the ANA, ANS, AINA, regional & state associations, and local coin clubs. As a public service, we have made this list available to the ANA at no charge.

DEALERS & BUSINESSES – We now have more than 7,000 records for businesses in the coin and bullion industry. Included are all members of the PNG, ICTA, IAPN, BNTA, NBDA, and many other dealer associations. Most of these records are for dealers in rare coins, currency, tokens, medals, precious metals, coin jewelry, and fine numismatic literature. Also included are records for public and private mints, refineries, suppliers and distributors, grading and authentication services, show-promoters, auction houses, and publishers of our trade & hobby publications.

And... YES, we can sort this data to meet your specific requirements. We can sort our data by category, by country, by region, by state, or by zip code area. When you need MAILING LABELS or LISTS in order to target your audience, we can help. And if you want to know what major shows are scheduled in September of 1995, for example, YOU KNOW WHERE TO FIND THE ANSWER!

Whether you are the world's largest market-maker in modern-issues, looking to expand your business, or Montana's smallest coin club, looking for dealers and collectors to attend your next coin show, Numismatic Directory can help you! **CALL NOW! (619) 452-1971**

How some people will earn 24% annually on their investments before we see a penny

Last June Hannes Tulving Rare Coin Investments completed the formation of a new limited partnership called *Speculative Coin Fund I.*

Although this particular partnership is now closed to new investors, there will be others in the future. So we thought you might like to learn about the terms of this one.

The group has invested in rare coins for short term profits. No fees or commissions were charged to the investors. All costs of forming and operating the partnership are being paid by us, the General Partner.

Commissions are not charged for buying or selling. And there are no management fees.

In addition, we will not participate in any profits *until each investor has received a cumulative return of 24 percent per year!* All profits over 24 percent will be split 50-50 between the General and Limited Partners.

That means we have a very big incentive to make sure the investors realize that 24%.

Wonder how we can be so confident that we'll reach such high profit levels?

Call or write for our brochure which describes our 13 year history of rare coin investing. You'll learn that we are the largest investment group of this kind in the nation, led by one of America's most respected rare coin experts, with an impeccable reputation for integrity.

You'll also learn that our investors have experienced average profits of over 20% per year since 1976.

Details of *Speculative Coin Fund I:*

of units: 100 Price per unit: $24,000
Total fund: $2,400,000 Maximum term: 2 years
Closing date: June 30, 1989

For information on our other high yield investment programs send in the coupon below, or call toll-free.

We employ no commissioned sales people so there's never pressure to invest. Minimum investment $5000.

Call **1-800-854-6016** or in CA call **1-800-854-5179.**
Or mail in the coupon below.

Past performance is not a guarantee of future results and investing in rare coins can result in a loss.

1

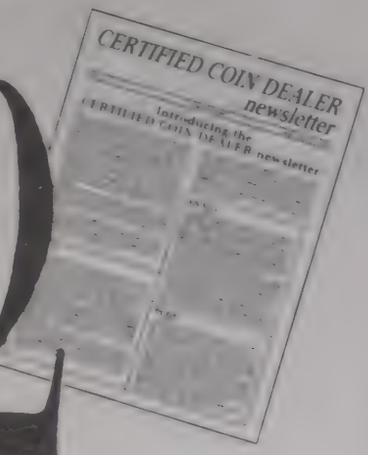

The Greysheet

(as the Coin Dealer Newsletter is often called) has been the standard wholesale pricing guide of the coin industry since 1963. It is an up-to-date reporting of dealer to dealer bid/ask prices on rare coins from the earliest through the most recent issues. (For 27 years we have given our subscribers the most comprehensive and unbiased report of the entire coin market with all the facts necessary to make informed buying and selling decisions). The CDN is published weekly to enable you to keep pace with the often dramatically changing price levels. Plus your subscription includes FREE monthly supplements. All coin dealers have discovered how invaluable the "Greysheet" is.

The Certified Coin Dealer newsletter brings you an intensive look at the certified coin market and the variables in price structure among the industry's leading grading services.

1988: We put our clients into PCGS MS-64 Saints at $1,142. per coin. At that time, the Iranian gold buyer was known to only a few well connected insiders. Three weeks before their collapse at the ANA, we liquidated all clients positions for AN AVERAGE NET PROFIT OF 46% IN LESS THAN 6 MONTHS!

1989: We issued a buy signal for a select group of Commems. From the time we issued a buy signal until we issued a sell signal, (3 weeks before they collapsed) ANE bids moved up an average of 111.3% OUR CLIENTS NETTED 50% IN SIX MONTHS!

1990: Last September 20th, I once again issued a RED ALERT buy signal. Clients who responded and purchased the coins from me, CAN LIQUIDATE THEM TODAY FOR AT LEAST A 30% PROFIT. (1-25-90).

PROFESSIONAL COMPUTER SOFTWARE for the RARE COIN DEALER

Finally . . . A professionally designed software package exclusively for the rare coin dealer.

No more will dealers have to pay tens of thousands of dollars for customized software or make do with something that is woefully inadequate for the task. Instead, for a reasonable price, dealers can buy a package that does it all.

This software is easy to use and was designed for the computer novice, so that you can reap the benefits of computerization without being a computer expert.

With the addition of an optional LASER SCANNER, the system works with the PCGS BAR CODE system for FAST, error free data entry. Of course, the system also operates without a scanner.

The system requires IBM AT or compatible computer with hard disk and printer.

For a more complete information package, please contact Casey Noxon or Bill Bauer at:

"Honest Abe, I wouldn't put my face on anything other than an NGC-graded coin."

Let's face it. There are millions of coins in circulation today. But when it comes to *real* face value, the coins in NGC holders are the ones with the most honest grades.

That's because, since its inception, Numismatic Guaranty Corporation faced facts, recognizing the need for a new standard of grading in the coin industry. While other grading services continue to allow their employees to be active dealers, NGC's policy has been to strictly forbid final graders and full-time employees to buy, sell or trade coins for commercial purposes.

Coins graded by NGC are evaluated by professionals whose only job is to determine the exact quality of the coins they're grading. They have no commercial interests to serve. Thus, NGC offers both buyer and seller the benefits of independent analysis and complete impartiality. Resulting in coins that are not subject to fluctuating standards. Coins that can be bought and sold sight-unseen. Through NGC authorized dealers, and now through the American Numismatic Exchange.

By making honesty its policy, NGC has made stability a constant and liquidity a reality for everyone interested in buying and selling coins. Which is why, when some of the world's most respected financial institutions decided to invest in rare coins, they trusted their money to NGC.

Whether you're a hobbyist, a collector, or an investor, you can always trust NGC to give you the best money can buy. *Honestly.* For more information about NGC and a free sample of our sonically-sealed, tamper-proof holder with a silver pre-1964 Roosevelt dime, complete and mail the coupon or call 1-201-984-6222.

FREE! Complete and mail the coupon to send for your complimentary pre-1964 Roosevelt dime encapsulated in an NGC holder, so that you may examine the security it affords while showcasing the natural beauty of the coin itself.

Please send me additional information about NGC.

Please forward my name to the NGC dealer nearest me.

The cost of an MS-65:

The cost of Accurate & Timely Information:

The Coin Dealer Newsletter

The biggest bargain in today's advancing market, because the cost of not being informed is going up. If you subscribed to the ***"Greysheet"*** you would know the current Bid of the MS-65 $5 Indian or any of the **2,300 +** other issues we track:

FLYING EAGLE CENTS	BARBER QUARTERS	GOLD COMMEMORATIVES	PROOF TYPE
INDIAN CENTS	STANDING LIBERTY QUARTERS	MODERN COMMEMORATIVES	PROOF SINGLES
KEY LINCOLN CENTS	KEY WASHINGTON QUARTERS	EARLY US GOLD TYPE	SINGLE SETS
TWO CENTS	BARBER HALVES	MODERN US GOLD TYPE	ROLL SETS
THREE CENTS, NICKEL	WALKING LIBERTY HALVES	PROOF US GOLD TYPE	MINT SETS
THREE CENTS, SILVER	FRANKLIN HALVES	$2½ INDIANS	PROOF SETS
SHIELD NICKELS	MORGAN DOLLARS	$5 INDIANS	BU ROLLS
LIBERTY NICKELS	PEACE DOLLARS	$10 INDIANS	CIRCULATED ROLLS
BUFFALO NICKELS	EISENHOWER DOLLARS	$20 ST. GAUDENS	SILVER BAGS
BARBER DIMES	ANTHONY DOLLARS	CIRCULATED TYPE	BULLION GOLD
MERCURY DIMES	SILVER COMMEMORATIVES	UNCIRCULATED TYPE	FOREIGN GOLD

With the "***Greysheet***" a bargain at our $3.50 single issue price, think of the savings with an $89 annual subscription; 52 weekly issues plus 12 Monthly Supplements are just $1.39 each. Remember, in only 49 days, the cost of that MS-65 $5 Indian rose over 46% and this is not an isolated case. Many other Bids increased just as dramatically. If you buy or sell only one coin this year, you cannot afford to be without our family of publications. **You should be as well informed as the professionals.**

PUBLISHER'S STATEMENT OF COPYRIGHT AND LIMITATION OF LIABILITY

Reproduction of any part of the 1990 Numismatic Dealer Directory without written permission of the Coin Dealer Newsletter is a violation of copyright law and is specifically prohibited. The CDN will strictly respond to any and all violations of the CDN copyright.

Every precaution has been taken to avoid errors and omissions in the 1990 Numismatic Dealer Directory, both in the directory listings and in the display advertisements. The Coin Dealer Newsletter expressly rejects any liability for errors in the listings due to incomplete, inaccurate, or omitted information. The free dealer listings may be corrected for the 1991 Numismatic Dealer Directory by submitting one of the Change of Address coupons provided at the end of the "GREYPAGES" advertising section.

Every precaution was also taken to correctly include all display advertising. Should any error have occurred, an advertiser is limited in recovering for any loss or omission to a pro-rata abatement of the charge paid for such advertising in the proportion that the error reduces the value of the entire advertisement. In no event shall such recovery exceed the amount paid to the Coin Dealer Newsletter. An advertiser can substantially avoid the risk of errors or omissions by submitting camera-ready copy, which we encourage for all display advertising.

Note to consumers: The 1990 Numismatic Dealer Directory has been prepared for use by members of the numismatic dealer community. As consumers, only you can decide what services or products best meet your needs. The inclusion of any dealer in the 1990 Numismatic Dealer Directory DOES NOT MEAN that the Coin Dealer Newsletter has endorsed the products or services of such dealers. Neither the listing of dealers nor the display advertising constitutes an endorsement of the individuals concerned, their companies, business practices, or products. Furthermore, you should be aware that "GREYPAGES" advertisers are subject to various local, state, and federal laws and regulations; the enforcement of such laws and regulations is the responsibility of the appropriate agencies.
